PROFILE SUMMARY

ReactJS Developer with 5+ years of experience building scalable, responsive, and high-performance web applications using React.js, Next.js, JavaScript, and TypeScript. Strong expertise in reusable component development, API integration, SSR optimization, frontend performance tuning, and responsive UI implementation. Hands-on experience integrating Agentic AI and AI-powered features into frontend applications, including AI-assisted workflows and LLM-driven tooling. Experienced in collaborating with backend teams, UI/UX designers, and stakeholders to deliver user-friendly applications across enterprise and media platforms including Forbes India, CNBC TV18, and News18 Features.

CORE SKILLS

Frontend Technologies: React.js, Next.js, JavaScript (ES6+), TypeScript

State Management: Redux, Context API

Styling: HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, Material-UI (MUI)

API Integration: REST APIs, GraphQL, JSON Handling

Backend Knowledge: Node.js, Express.js

AI & Agentic AI: AI-assisted development tools, LLM integrations, Agentic AI workflows, prompt-driven automation

Performance & Architecture: SSR, PWA, Micro-Frontend (MFE), Component-driven Development

Tools & DevOps: GitHub, GitLab, Docker, PM2, CI/CD Pipelines

Cloud & Deployment: Azure Fundamentals, AWS Basics

PROFESSIONAL EXPERIENCE

Nimap Infotech — Senior Frontend Developer (Nov 2024 - Present)

- Developed scalable React.js and Next.js applications for Network18 platforms including Forbes India, CNBC TV18, and News18 Features.
- Built reusable UI components and frontend libraries to improve maintainability and development speed.
- Integrated REST APIs and optimized frontend API handling for better user experience and application performance.
- Explored and applied Agentic AI and AI-based tools to streamline development workflows and boost engineering productivity.
- Implemented SSR optimization, SEO enhancements, and frontend caching strategies.
- Collaborated with backend teams, UI/UX designers, QA, and stakeholders for feature implementation and delivery.
- Performed code reviews, debugging, and frontend performance tuning for scalable applications.
- Mentored junior developers and contributed to frontend best practices and coding standards.

Sapphire Human Capital — Frontend Developer (Oct 2023 - Aug 2024)

- Rebuilt DEI.jobs platform using React.js with SSR optimization and reusable UI architecture.
- Developed Salary Hike Calculator and HRA Exemption Tool with React.js and API integrations.
- Improved application responsiveness, routing performance, and cross-browser compatibility.
- Worked closely with backend teams for API integration, validation, and error handling.

Tech Mahindra — Web Specialist (Aug 2021 - Mar 2023)

- Developed responsive web pages and reusable frontend components using JavaScript and React.js.
- Improved UI responsiveness and ensured cross-browser compatibility.
- Participated in frontend debugging, enhancements, and release support activities.

PROJECT HIGHLIGHTS

- **Network18 Platforms:** Developed scalable frontend systems for Forbes India, CNBC TV18, and News18 Features using React.js and Next.js.
- **Enterprise Dashboard:** Built Login, OTP, User Management, and Masters modules using modular frontend architecture.
- **Benow PWA:** Developed Progressive Web Application with reusable React components and responsive UI implementation.
- **CarInfo Platform:** Developed SSR-based modules including RTO, RC, Challan, and Service History using Next.js.

EDUCATION

Bachelor of Engineering (EEE), 2015 – 2019

CERTIFICATIONS

JavaScript – Cutshort | Linux Fundamentals | HTML/CSS | REST API Development

LANGUAGES

English (Fluent), Hindi (Native)
